Abstract / Discussion (E-1, E-3, E-4): Add a data element to the UPPD, UPPD Validation, and Capacity Release Offer documents called "Change Points Indicator." Data element would be mutually agreeable (MA) in the UPPD document, conditional in the UPPD Notify and Request to Confirm document, and sender's option (SO) in the Capacity Release Offer document.

Some Transportation Service Provider's tariffs allow a releasing shipper to also release the right to the replacement shipper to change the gas transaction points of the release. This indicator would communicate in the UPPD, UPPD Notify and Request to Confirm, and Capacity Release Offer documents whether the right to change points is contained in the release or not.

Applicable Documents: UPPD, UPPD Notify and Request to Confirm, Capacity Release Offer documents.
