TECHNICAL CHANGE LOG (all instructions to accomplish the recommendation)

Document Name and No.: UPPD Final Disposition 5.4.12

Description of Change:
G567UDFD - UPPD Final Disposition
X12 Mapping
Add "Contract Validation Error" to BC06. See Code Values Log

4. SUPPORTING DOCUMENTATION

a. Description of Request

Request for a new Final Disposition Response Code of "U6" Contract Validation Error [in the UPPD Final Disposition Document.]

b. Description of Recommendation:

Business Practices Subcommittee

BPS recommends to add a code to disposition response code to indicate contract validation error at award time, (in case of changes in the status of the contract between initial validation of the UPPD and award time), and send the request to IR for implementation."

"'Contract Validation Error' -- To indicate contract validation error at award time in case of changes in the status of the contract between initial validation of UPPD and award time."

c. Business Purpose:

[Requester] will validate the UPPD offer information when it is received. Through the award process, the offer validation will execute again. This is done because a contract's situation can change between offer time and award time. [Requester] needs a way to reflect validation error at award time.

$\textbf{d.} \quad Commentary/Rationale \ of \ Subcommittee(s)/Task \ Force(s):$

IR: Implementation per request and BPS recommendation.
