---	--

3. Description of Proposed Standard or Enhancement:

Request for a New Business Conditional data element and code values for a Rights to Amend Primary Point indicator in the Capacity Release Data Sets.

4. Use of Proposed Standard or Enhancement (include how the standard will be used, documentation on the description of the proposed standard, any existing documentation of the proposed standard, and required communication protocols):

The data element would be used in the capacity release process. A customer releasing a primary point on the contract would use the indicator to signify that he is willing to allow the releasing customer to relocate the primary point. If the indicator is check yes, then the replacement shipper would be allowed to request a change to the primary point on the released contract. If the change were to be approved then the replacement contract would be changed to move the primary point to the new location.

5. Description of Any Tangible or Intangible Benefits to the Use of the Proposed Standard or Enhancement:

N/A

6. Estimate of Incremental Specific Costs to Implement Proposed Standard or Enhancement:
