	schedu	led quantities	transactions.	

Gas Industry Standards Board Request for Initiation of a GISB Standard for Electronic Business Transactions or Enhancement of an Existing GISB Standard for Electronic Business Transactions

4.	Use of Proposed Standard or Enhancement (include how the standard will be used,
	documentation on the description of the proposed standard, any existing
	documentation of the proposed standard, and required communication protocols):

		Poolers on Southern Natural's system will, through the use of a
		capacity priority for physical receipt points, provide the means for the
		pipeline to determine the queue positions of the poolers nomination at
		physical receipt points based on the queue positions of the underlying
		transportation contracts that are nominated on the delivery side of the
		pool. Poolers will input a priority of 1-99 at such receipt points with 1
		being the highest priority and 99 being the lowest.
5.	Description	of Any Tangible or Intangible Benefits to the Use of the Proposed
	Standard or	Enhancement:
	Otaliaala ol	
		Without this data element, Southern will not be able to determine the
		queue position of receipt points nominated in pools based on the
		underlying queue positions of the transportation contracts being
		served by the pool.
